

On Saturday the 14<sup>th</sup> April, me (Emily Birch),  
Jessica ~~bradshaw~~ Bradshaw and Adeline  
An prepared a stall to raise money for cancer  
research. We did this because we knew we were doing  
the right thing and also to think we've helped many  
people is an achievement! Afterwards we felt very  
happy as we raised lots of money to help those in need.

We had 14 customers come to our stall  
but we had two children and people bought  
things for their grandchildren. People just gave  
us money. The first customer was an old lady  
who bought a Peppa Pig book. The second  
customer was a lady called Sarah and she  
gives money to cancer research every  
month. The 3<sup>rd</sup> ~~customer~~ customer was a family  
who came with 2 children. They bought a  
loom band bracelet. There was many, many  
more customers who came. We raised  
£35.20. We were so proud of ourselves  
and we are getting certificates from cancer  
research UK. Yay!

We were going to sell unwanted books, toys, bookmarks,  
loom bands and much more. It was a good opportunity to do a  
stall because it was a nice, sunny day where lots of people went out  
with their family. Once we moved to Jess's house we got more and more  
customers which made us feel really happy because we raised more  
money than we expected.
